- B. Certified judges from both the World Baton Twirling Federation (WBTF) and the World Federation of National Baton Twirling Associations (WFBTA) will judge IBTF competitions and will utilize their own judging system.
- C. As well as this document, Athletes and Coaches should also refer to the IBTF Competition Policy Handbook and the IBTF Entry Registration Process Manual.
- D. As 2023 was the inaugural IBTF World Championship & Nations Cup, the rules incorporated the majority of events from both WBTF & WFBTA federations. Following these competitions, some rules have been revised.

2025 NATIONS CUP

A TIER II COMPETITION FOR THE DEVELOPMENT OF ATHLETES AROUND THE WORLD

IBTF'S PHILOSOPHY STATEMENT FOR AN EQUITABLE COMPETITION AMONG NATIONS CUP ATHLETES

There will be 2 Levels of competition in the Nations Cup: Level B and Level A which are determined by Content Restrictions.

It is the responsibility of the coach and athlete to enter the appropriate level in the Nations Cup based on the athlete's true proficiency of skills and experience. The IBTF expects that all member countries will respect and honor these levels in order to uphold the integrity of International competition and promote an honest competitive environment.

By reviewing the Content Restrictions that are in place, athletes should enter the appropriate level based on their proficiency and competitive achievement. Athletes who compete at higher levels throughout the year in their respective countries, **SHOULD NOT** have routines "watered-down" in order to meet the content restriction requirement to compete at a lower-level competition.

5. RULES SPECIFIC TO ALL EVENTS

The use of acrobatics, though permitted, is not given extra consideration nor will its use contribute to determining the rating and ranking of the athletes. The IBTF philosophy regarding adjudication prioritizes, first and foremost, the quality and technique of aerial work, rolls, contact material and accompanying bodywork. All other enhancements to a performance such as acrobatics, floor work, dance, novelty, etc. will not supersede the qualities and skills executed in Baton twirling.

6. SET SYSTEM FOR ALL DISCIPLINES

The Set System shall list the names of everyone, duo, team, group and/or corps (and country) in each lane (indicating the event and division). For Set #1, the Announcer shall call the set number, then the name of the athlete (s) (and country name) on each lane that corresponds to that set number. The athletes shall acknowledge to the judge (e.g., relevé with arms raised in a “V”). After all athletes for a particular set have been introduced, the Announcer will then ask, “Are the judges ready?”, say “Music” and each entrant will begin their routine when the music starts.

Upon completion of the music: The Announcer will announce the next set number and introduce the next set of performers (and their country name) on each of the lanes. The announcer will then say the following:

- 1) For the NATIONS CUP (with B & A Levels of competition): The Announcer will say “Judges marks for penalties” and the penalty judges will display their marks for any penalties. (A yellow card with black numbers for Content Restriction violations and a white card with red numbers for displaying the number of drops)
- 2) For the WORLD TECHNICAL BATON TWIRLING CHAMPIONSHIP (only): the Announcer will say “Judges marks for penalties” and the penalty judges will display the number of drops assessed on a white card with red numbers.
- 3) Those completing their performance and receiving their penalty marks will leave the floor and the next set of performers will take their position in front of the judges, and the Announcer will ask “Are the judges ready” and then say “Music”. This procedure will continue until all sets are completed.

NOTE: Judges scores are NOT displayed following each athlete’s performance.

7. ACROBATIC CONTENT RESTRICTIONS

Definition of an Acrobatic Move

A movement will be considered acrobatic in a Baton twirling program when the intent of the movement is for both feet to leave the floor, travel over the head and land on the floor on the opposite side. The feet can leave the floor or land on the floor either at the same time or one at a time. This applies when the move is executed on:

- the hand(s) (e.g. a cartwheel done on the hand(s))
- the arm(s) (e.g. a cartwheel done on the forearm(s))
- the head (e.g. a headstand)
- in the air with the support of another person's body (e.g. a cartwheel done while supporting the body on the leg(s) of another person)

Typical examples are: front or back walkovers, cartwheels, etc.

Definition of an Aerial Acrobatic Move

A body movement in which the athlete turns completely over in the air without being supported or touching hands on the floor.

Examples:

- In the air without support of the body (e.g. side aerial; back flip; aerial walkover)

NOTE: A horizontal butterfly (where the feet do not go over your head) is not considered aerial acrobatics move. It is considered a major body movement.

ALLOWANCES FOR SPECIFIC DISCIPLINES

WORLD CHAMPIONSHIP

- A maximum of 2 (only) acrobatic movements are allowed in Solo, with or without a toss. The movements may be combined or the two moves may be done separately.
- Acrobatic movements are not allowed in 2-Baton, 3-Baton, X-Strut, Duet, Twirl Team, or Twirling Corps.
- Acrobatic movements are permissible in Artistic Twirl, Artistic Pair and Artistic Team.
- Single Acrobatic movements are permissible in Artistic Group. No aerial acrobatic moves are allowed.

NATIONS CUP

See Appendix A for restrictions applying to specific events.

Illusions are allowed in all disciplines but should not be overused.

NOTE for Clarification:

The penalty for executing more acrobatic moves than allowed is considered a content restriction and will be assessed a 10.0 point penalty per judge on the 100-point scale and a 1.0 point penalty per judge on the 10-point scale.

8. IMPORTANT DEFINITIONS THAT APPLY TO THE CONTENT RESTRICTION CHARTS IN APPENDIX A

Standard Reception – (refers to type of catch) Vertical or Horizontal RH or LH catch or RH or LH grab.

Standard Release – Vertical RH or LH thumb toss. Vertical RH or LH backhand toss or Horizontal, RH or LH forward or reverse.

Major Body Move: A move that requires significant control, flexibility, strength, amplitude and extension. This classification includes any selected body move desired and includes moves such as: Illusions, walkovers, leaps, or jumps (of any type), sauté arabesque, attitude, grand battement, sauté de basque', tour jeté, cabriole, forward or reverse. These moves will be approximately 3 or more counts in duration.

Minor Body Moves: A move that does not require significant control, flexibility, strength, amplitude, or extension and additionally does not require horizontal or vertical reorientation to the Baton (no body rotations <turns>) or maneuvering the body upside down (illusions, bows, etc.). These moves will be approximately 2 counts in duration. This classification includes moves such as: hop, skip, chassé, piqué, step-step, and coupé, sauté. This category will often be used as preparation or follow through movements. Refer to the definition of terms not defined in this chart.

ATTENTION: The chaine' turn is in the same classification as spin. Ex. Single chaine' turn = 1 spin; double chaine' turn = 2 spins

REMINDER: Acrobatics are considered a Content Restriction in “disciplines that only allow a specific number or do not allow them and are subject to a content restriction penalty.

THE FOLLOWING X STRUT CONTENT RESTRICTIONS LISTED HERE ARE FOR LEVEL A ONLY:

Baton Movements	<p>NOTE: Baton movements are the same regardless of level (A Level or World Level)</p> <p>Refer to the X Strut Concept Summary for complete details.</p>

Clarification: In A level - double major body elements are permitted however, they may not be combined with other major, or minor body elements unless there is a definite halt with both feet on the floor before the next element is performed.

Tips for choreographers regarding spins in X-Strut:

*It is important that choreographers do not over-use elements where a pause after the element could appear abrupt or awkward. Choosing elements that flow together (even with a pause between) will promote smooth and logical transitions. That is key to a successful X strut.

DEFINITION OF A BATON

A standard Baton is a chrome-plated/silver steel shaft with varying size weights in either end.

The weights are either pounded or pressure fitted and covered with a white rubber ball (the large end) and a small white rubber tip covering the other end.

Various Batons have various balance points depending upon size and weight.

Most Batons are between 14 to 32 inches (35.5 to 81.5 cm) in length and are either 3/8 inch (10 mm), 5/16 inch (8 mm), or 7/16 inch (11 mm) in diameter. The normal standard Baton weights about 8 ounces (or 227 grams) – the length and diameter do also factor into the weight.

USE OF GRIP TAPE ON BATONS

The use of grip tape is optional, may be used bearing in mind that this is a sport.

Grip tape can cover up to ½ of the shaft, divided equally from the center – when measuring only the shaft, not including ball and tip.

Grip tape can cover up to ½ of the shaft, divided equally from the center.

Clarification: The outer quarter of each end may not be covered.

Grip tape can be applied in solid, striped or spiral fashion.

Color of grip tape on the Baton is free.

14. NUMBER OF ROUNDS

(2025 Nations Cup/World Championship)

The rounds and advancement procedure will vary depending on whether the Division is 'Small', 'Medium', or 'Large', as of the entry closing date.

The number of rounds of competition for each division will be determined based on the set system prepared and distributed to each country according to their registration.

Athlete additions after the close of the entry deadline are not allowed

Withdrawals from the competition occurring after the entry closing date do not alter the scheduling of any Preliminary, Semi-Final or Final Rounds and do not change an age division's status as 'small', 'medium', or 'large'.

For Solo, 2-Baton, 3-Baton, Artistic Twirl & Artistic Pair:

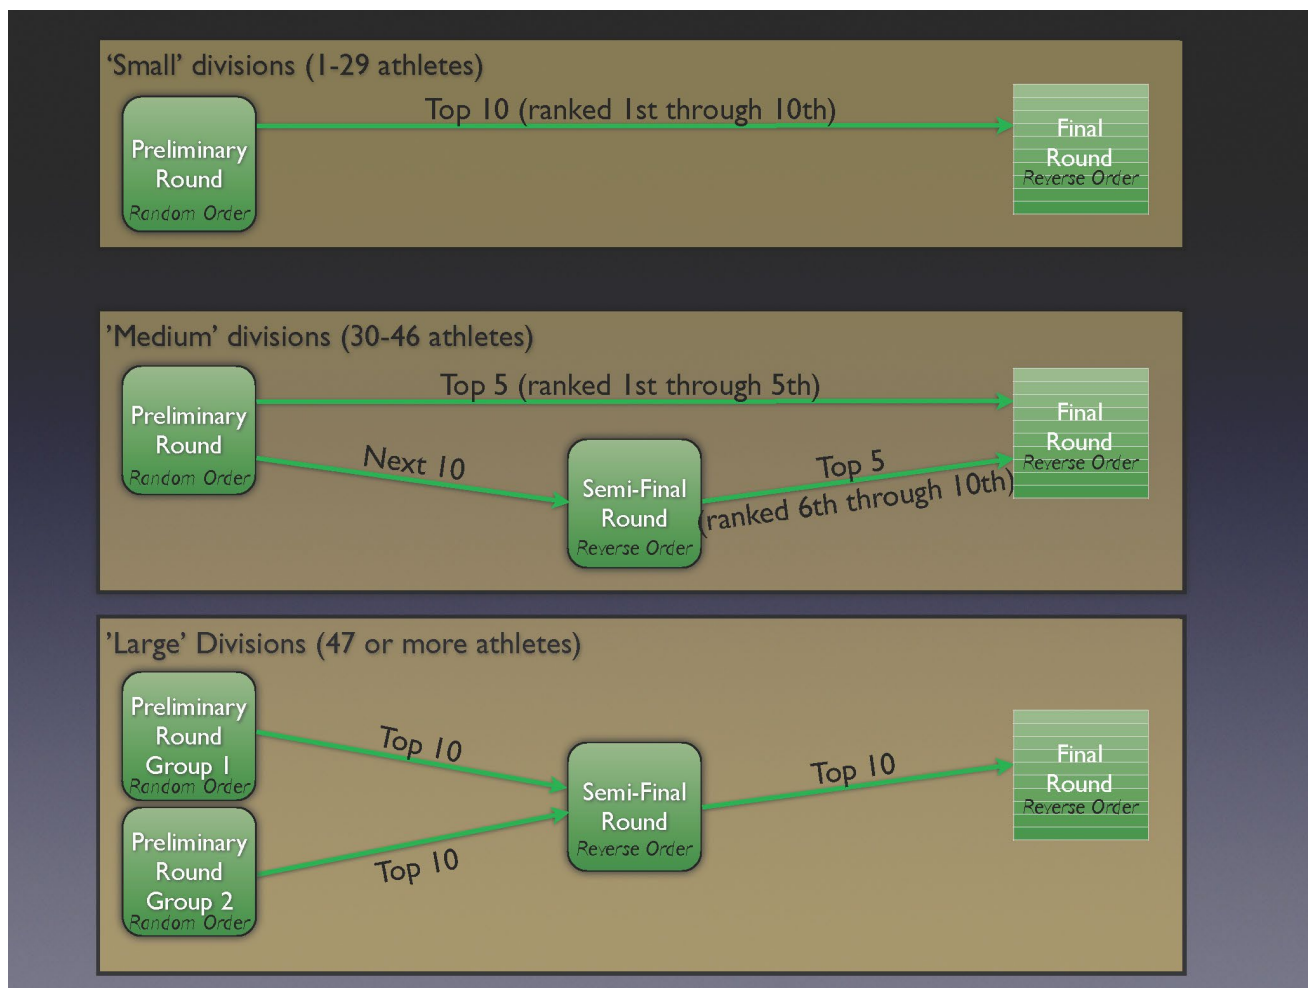

1. All disciplines and all age divisions will have two rounds of competition, with a Semi-Final round depending on the number of entries. All begin with a Preliminary Round and end with a Final Round.

The Final Round for all divisions is up to 10 athletes, plus all athletes tied for the final qualifying position. Because the Final Round does include all athletes tied for the final qualifying position, the actual size of a Final Round division may be larger than 10 athletes, with the top 10 athletes being awarded.

2. **“Small” divisions of 1-29 or fewer** (i.e.: between 1 and 29 athletes, inclusive) there are two rounds of competition. The athletes compete in a single Preliminary Round division, in random order. The Preliminary Round top 10 (including all ties for the *Final Qualifying Position*) move on to the Finals, competing in reverse order of Preliminary Round placement. The remaining athletes have completed competition.
3. **“Medium” divisions of 30-46** (i.e. between 30 and 46 athletes, inclusive) there are three rounds of competition. The athletes compete in a single Preliminary Round division, in random order. The top 5 placements from the Preliminary Round (including all ties for the *Final Qualifying Position*) advance directly to the Final Round, competing in reverse order of Preliminary Round placement and are ranked 1st to 5th. The next 10 (Preliminary places 6 through 15) including all ties for the *Final Qualifying Position* advance to a Semi-Final Round to fill out the remaining positions in the Final Round competing in reserve order of Preliminary Round placement before the athletes that advanced from the Preliminary Round.

4. **“Large” divisions of 47 or more**, there are three rounds of competition.

- The athletes are divided randomly into two evenly sized groups and will run as separate Preliminary Rounds.
- If there is an odd number of athletes entered, Group 1 will contain the additional athlete.
- The Group 1 Preliminary Round Top 10 (including all ties for the Final Qualifying Position) and the Group 2 Preliminary Round Top 10 (including all ties for the Final Qualifying Position) advance to the Semi-Final Round.
- Athletes in the Semi-Final compete in reverse order of Preliminary Round Placement, with the Group 1 athlete competing before the Group 2 athlete. (e.g.: Group 1 10th, Group 2 10th, Group 1 9th, Group 2 9th, and so on.)
- The Semi-Final Round Top 10 (including all ties for the Final Qualifying Position) advance to the Final Round, competing in reverse order of Semi-Final Round placement.

Regarding Ties:

- In a Preliminary Round, all athletes tied for the *Final Qualifying Position* will advance to the next round (either the Final Round or the Semi-Final Round, depending on the size of the Division).
- In a Semi-Final Round, all athletes tied for the *Final Qualifying Position* will advance to the Final Round.
- In a Final Round, a tie for first place must be broken. Final Round ties at any other position are not broken.
 - i. A tie for Final Round First Place is broken by using the Preliminary Round placement. The athlete with the higher Preliminary Round placement is awarded First Place.

The number of entrants that advance from the Preliminary Round to the Final Round varies, depending on the number of teams/groups/corps entered in the Division as of the Entry Closing Date.

1. For divisions of 20 or less, the top 6 teams, Artistic Groups or Twirling Corps move to the Finals.

Regarding Ties:

- In a Preliminary Round, all teams/groups/corps tied for the *Final Qualifying Position* will advance to the Final Round.
- In a Final Round, a tie for first place must be broken. Final Round ties at any other position are not broken.
 - i. A tie for Final Round First Place is broken by using the Preliminary Round placement. The team/group/corps with the higher Preliminary Round placement is awarded First Place.

15. SCORING PROCEDURES

ALL DISCIPLINES & LEVELS: Judges will be provided with Judging Master Sheets listing the names of the athletes and/or teams, groups, corps in each discipline and division they are assigned to judge. Judges shall use the Master for their own notations and to record the official score of each competitor that is sent to Tabulation. No score sheets will be issued; however, a complete copy of the Tabulation Recap Sheet for each category and round will be posted at the conclusion of each round of competition.

Each judge will use his or her own scoring system (i.e.: WFNBTAs judges will use their captioned scoring master. WBTF judges will use their Olympic Scoring Master. Where applicable, WFNBTAs scores will be divided by 10 to put the score into the same range as that of WBTF).

Judges for all disciplines will use the Place Point Ordinal Scoring System of judging. Exception: Artistic Groups which use the Caption Judging System.

a) Determination of Placement

Placement is determined by place points (not the scores) received. The following steps will be utilized:

Step #1 – Any majority of firsts will determine first-place only. If there is not a majority of firsts, revert to the lowest total PLACE POINTS (adding up the places each athlete received). The lowest number of place points determine all other placements.

Step #2 – When there is not a majority of firsts and there is a TIE in the place points, revert back to the total numerical score from all judges. The highest total score breaks the tie and determines the higher placement.

Step #3 – If Step #1 and Step #2 have been followed and a tie remains, use the following procedure:

- a) in preliminary rounds, all athletes tied in the last advancing position advance to the next round and remain unbroken.
- b) in final round, ties for any position except 1st place remain unbroken. All Ties will remain tied and one placement will be skipped. Example: a second-place tie, the next place is fourth.
- c) If there is tie for first place, use the preliminary round placement and follow the same procedure to break the tie and determine the winner.

* 5 or more judges normally serve on the panel for each team, corps, or group.

In order to appeal a penalty, a representative from the affected federation must do so by completing the appeal form (available from the Floor Monitor) within 30 minutes of completion of that last athlete's performance in the division. The completed forms must be given to the IBTF Technical or Judges Chairs who will review a recording of the performance or will appoint an appropriate-qualified substitute. A fee of 100 USD (or equivalent value in host country's currency) must be submitted with the form which is returned should the appeal result in a change of score, otherwise this fee is retained by the IBTF. THE SOLO DISCIPLINE

Discipline Description

The solo discipline is a stationary one-Baton discipline performed to standard music incorporating the 3 twirl modes of aeriels, rolls, and contact/connecting material.

Discipline Focus

1. Content:

The primary focus of the solo discipline is the representation of the 3 twirl modes, integrated and executed in various planes, patterns and directions with ambidexterity, varied body work enhancements, and an emphasis on continuity, consistency and flow. Difficulty/demand is created through speed, follow through, intricacy, timing and inherent depth of each of the 3 modes represented.

2. Execution:

The skills presented in the solo discipline should be seamless in connection and demonstrate an effortless degree of continuity and flow. Skill and quality of execution through smooth and seamless transitions determine the overall degree of excellence and successful mastery of the program in proportion to the inherent depth of skills presented.

Speed relates to the rate of revolution of the Baton in coordination with the motion of the body during the performance. Control and consistency throughout the performance indicates the athlete's authority in regulating the speed and handling of the Baton. Revolutions and speed control for the duration of the performance is reflective of the proficiency achievement of the athlete. Rate of revolutions and overall control of the speed is an important indication of the athlete's proficiency achievement.

Presentation qualities of the solo discipline exist in the detailing of facial communication, eye contact, body expressiveness, performance energy, confidence, and a total commitment by the athlete to the program's effectiveness.

3. Competition Floor Measurements and Set up:

A lane shall be approximately 25-30 feet (7.5-9.0 meters) across and 15-20 feet (4.5-6 meters) deep using floor plan A or B. The number of lanes and the actual size of each lane will be dependent on the available size of the competition floor.

Judges' tables shall be referred to as "lanes". See below for floor plan.

The schedule is set to run 6-8 lanes for these disciplines (based on available size of the competition floor)

THE TWO BATON DISCIPLINE

Discipline Description

The Two Baton (2 Baton) discipline is the simultaneous manipulation of two Batons by one athlete.

Discipline Focus

1. Content:

The primary focus of the 2 Baton discipline is the representation of the 3 twirl modes (2 Baton aeriels, 2 Baton rolls, 2 Baton contact material), integrated and executed in various planes, patterns and directions with ambidexterity, varied body work enhancements, and an emphasis on continuity, consistency and flow. Difficulty/demand is created through the interrelationship and intricacy of the two Batons. Multi-patterns, planes, and oppositional direction of the three modes are woven into a “textured” routine where both Batons are of equal priority.

2 Baton content exists of six combinations of the three modes of twirling. Aeriels with aeriels, aeriels with rolls, aeriels with contact.....Rolls with rolls, rolls with contact.....and contact with contact. These can all be executed utilizing dual planes, dual pattern and opposition. 2 Batons also allow for a variety of aeriels - double releases (from one or both hands), high/low, high/high, low/high.

2. Execution:

The skills presented in the two-Baton discipline should be seamless in connection and demonstrate an effortless degree of continuity and flow with both Batons having equal priority. Skill and quality of execution through smooth and seamless transitions will contribute to the overall degree of excellence and successful mastery of the program in proportion to the inherent depth of skills presented.

Speed relates to the consistent rate of revolution of both Batons in coordination with the motion of the body during the performance. Control and consistency throughout the performance indicates the athlete’s authority in regulating the speed and handling of the Batons. Revolutions and speed control for the duration of the performance is reflective of the two-Baton proficiency achievement of the athlete. As proficiency increases, Batons may move at different speeds to accommodate the intricacy of the combination. This is acceptable. There is a mastery and authority of the Batons in terms of spatial awareness, which is inherent to 2 Baton training and execution. This authority is a distinguishing factor that yields value to this discipline and makes it different than solo twirling.

Presentation qualities of the 2 Baton discipline exist in the detailing of control, correct posturing and body enhancements along with performance energy, confidence, and a total commitment by the athlete to the program’s effectiveness.

THE THREE BATON DISCIPLINE

Discipline Description

The Three Baton discipline (3 Baton) is the simultaneous manipulation of three Batons by one athlete.

Discipline Focus

1. Content:

The primary focus of the three-Baton discipline is the representation of the 3-Baton aerial mode complimented with rolls and contact material. The bases of the 3-Baton aerial mode is represented by various sequences: pendulums in opposition, crescent tosses, bowling pins, double/single and single/double tosses, triple tosses, vertical box showers and horizontal showers to name a few. Difficulty/demand is created through the interrelationship and intricacy of the three Batons. Multi-patterns, planes, and oppositional direction of the three-Baton aerial mode are woven into a “textured” routine where all three Batons are of equal priority. The modes of rolls and contact material are embedded within the sequences to create depth and thus, create more difficulty/demand and density.

High/low 2 Baton skills are a natural transition to 3 Baton and we would expect to see this occur as a variation from basic juggling skills. The ultimate goal is to develop beyond this stage, to frequent use of triple tosses and multiple planes, decreasing the percentage of basic juggling and thus increasing ongoing 3 Baton combinations.

2. Execution:

The skills presented in the three-Baton discipline should be seamless in connection and demonstrate an effortless degree of continuity and flow with all three Batons having equal priority. Skill and quality of execution through smooth and seamless transitions will contribute to the overall degree of excellence and successful mastery of the program in proportion to the inherent depth of skills presented. There should be an obvious rhythm of juggling execution that is evident with good quality timing. The quickness of releases and receptions, spatial awareness, and continuity and flow will be a trained technique that substantiates the 3-Baton performance.

Control and consistency throughout the performance indicates the athlete’s authority in regulating the flow of the Batons. There is a mastery and authority of the Batons in terms of spatial awareness, which is inherent to three-Baton training and execution. The lack of collecting the Batons shows a high proficiency of physical and mental stamina and adds value to the rhythm, continuity and flow.

Presentation qualities of the three-Baton discipline exist in the detailing of control, correct posturing and body enhancements along with performance energy, confidence, and a total commitment by the athlete to the program’s effectiveness. This discipline showcases Baton handling, requiring constant shifts of rhythm and timing.

THE X-STRUT DISCIPLINE

Discipline Description

The X-Strut discipline is a unique discipline incorporating movement forms and military style marching with restrictive, yet complimentary, Baton work rhythmically executed on a prescribed “X” formation to prescribed march music.

Discipline Focus

1. Content:

The X-Strut discipline is a body dominated discipline that has movement choreography displayed rhythmically enhanced with creative, yet restrictive, Baton work that may never leave the hand. Creative and varied passes, slides, loops, swings, etc will act as a “third dimension” to the rhythmically displayed body routine. A variety of leaps, kicks, lunges, spins/turns and poses will compliment the fluid choreography along with other appropriate forms of movement skills. Timing and continued rhythmic flow will be seamless and clarity of body and Baton is of utmost importance. Proper training and execution of body and Baton technique is paramount and the athlete will display moves that are compatible with the achieved skill set of the athlete. The “X” formation is the staging of the routine with the required 4 basic marching steps to begin the first, second, third, and fifth “legs” of the “X” formation. Timing of the X-Strut routine begins with the first movement and ends with the final salute.

2. Execution:

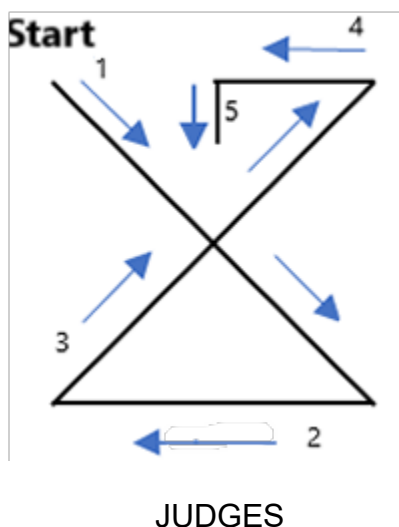

The skills presented in the X-Strut discipline should be seamless in connection and demonstrate a priority of proper body and Baton technique and reflect the prescribed timing responsibility as dictated by the music. Although not musically interpretive, the X-Strut routine must conform to the rhythm, phrasing, and timing structure of the music. The required basic marching steps must be executed beginning with the left foot and accenting the downbeat of the music. When not in basic march mode, the athlete will display a “free form” series of movements that must reflect the beat and rhythm of the music. The athlete will perform with consistent projection, eye contact, confidence and enthusiasm. The entertainment value increases when the athlete is able to draw the audience into the performance with positive energy and excitement.

X STRUT Additional Information

The X Strut is a body and **restricted Baton** event performed in a specified X pattern in a rhythmical presentation which includes compulsory basic marches [at all levels of competition](#). Emphasis is on timing, balance and the simultaneous blending of an equal degree of excellence of both Baton and body skills.

Construction

- **Athletes shall perform individually within the prescribed “X” floor pattern.**

- Direction of pattern shall be as in the diagram above and the required basic marching steps with complimentary Baton work that must occur are represented by the numbers on the 1st, 2nd, 3rd and 5th legs
- The athlete’s opening section of the strut program before the opening salute should remain in the same general area without excessive movement away from their starting position.
- WFNBTATA salute is to be given at the beginning after the opening section and the end of the routine, with the beginning salute facing the first diagonal, and the ending salute facing the judges, holding the salute position for a minimum of two counts.
- **Movement may take an athlete slightly off the X strut pattern;** however, as long as the athlete continues in the basic directional X pattern, a penalty is not assessed.
- The “free movement” portion after the 5th leg shall not extend beyond the borders set by leg 1. The athlete may conclude the performance at any point within designated area.
- One penalty for out-of-step will be given for each series of 4 marching steps
- There is no forward movement permitted in the same direction before the required basic marching sections.
- No more than two continuous Baton revolutions are permitted when the Baton is held by the shaft. Loops when the Baton is held by the ball or tip are unlimited. The Baton must remain in the grip of one hand or the other throughout the whole performance.
- **Slides are permitted. Tosses/rolls/fingers/any form of releases are not permitted.**

- Retracing is permitted.
- **Acrobatic movements are not permitted.**
- No parts of the body other than the feet should touch the floor throughout the routine.
- Baton floor contact is allowed when intentional and not a result of a loss of control which would then result in a reduced degree of excellence score.
- No Baton or body elements are permitted after the final salute. Bringing the Baton out of the salute position is not considered an element.

THE ARTISTIC TWIRL DISCIPLINE

Discipline Description

The Artistic Twirl discipline is the interpretive performance of an individual to a standard musical selection encompassing the technical and artistic blending of the Baton and the body, prioritizing a choreographed work that could stand alone as musically reflective.

Discipline Focus

1. Content:

The artistic twirl discipline is a body-dominant discipline that has dance/movement choreography as its base. Embedded within the choreography will be representations of the 3 twirl modes to enhance the choreography. In addition, the “travel mode” will be represented and will enhance the use of space and proper staging, therefore giving the performance depth. A broad base of skills of Baton and body with respect to the music will be consistently present. Various “styles” of approach are possible with this discipline. The consistency and detailing of the chosen style should be a common “thread” of connection within the choreography.

2. Execution:

The skills presented in the artistic twirl discipline should be seamless in connection and demonstrate a priority of proper body and Baton technique. The base of skills within the choreography should be musical. “Token” moves/sections with little to no regard for the music will receive little to no credit. The artistic twirl routine will be choreographically paced with impact moments, highs and lows, contrasts of dynamic performance qualities, and expression that yields an artistic and entertaining program. The athlete and his/her “characterization” via the routine should embody the essence of the musical composition in phrasing, rhythm, and emotion. If a specific style of movement is selected (ballet, jazz, contemporary, modern, character, for example), the athlete will adhere to that style throughout the performance. The ultimate artistic twirl performance will create an “aura of performance” that transcends a mere demonstration of varied and blended skills into an entertaining art form.

THE ARTISTIC PAIR DISCIPLINE

Discipline Description

The Artistic Pair discipline is the interpretive performance of two athletes to a standard musical selection encompassing the technical and artistic blending of the Baton and the body, prioritizing a choreographed work that could stand alone as musically reflective and interdependent on each other.

Discipline Focus

1. Content:

The artistic pair discipline is a body-dominant discipline that has movement choreography as its base motivated by “pair aesthetics”. Embedded within the choreography will be representations of the 3 twirl modes and exchanges to enhance the choreography. In addition, the “travel mode” will be represented and will enhance the use of space and proper staging of the two athletes, therefore giving the performance depth. A broad base of skills of Baton and body with respect to the music will be consistently present and each athlete will be dependent on each other to fully present a vision of pair choreography. Various “styles” of approach are possible with this discipline as long as the routine preserves the integrity of the pair discipline.

2. Execution:

The skills presented in the artistic pair discipline should be seamless in connection and demonstrate a priority of proper body and Baton technique and reflect a pair “thought process” in concept. The base of skills within the choreography should be musical. “Token” moves/sections with little to no regard for the music will receive little to no credit. The artistic pair routine will be choreographically paced with impact moments, highs and lows, contrasts of dynamic performance qualities, interrelationship, interaction and expression that yields an artistic and entertaining program. The athletes’ and his/her “characterization” via the routine should embody the essence of the musical composition in phrasing, rhythm, and emotion. If a specific style of movement is selected (ballet, jazz, contemporary, modern, character, for example), the athletes will adhere to that style throughout the performance. The ultimate artistic pair will have an innate/trained sense of the partner’s awareness as if they are “communicating” without speaking. The ultimate artistic pair performance will create an “aura of performance” that transcends a mere demonstration of varied and blended skills into an entertaining art form. It will have professional qualities that one would see similar to pair ice dancing or pair ballroom.

THE DUET DISCIPLINE

Discipline Description

The Duet discipline is the simultaneous twirling of two athletes utilizing the 3 twirl modes with the addition of exchanges, multiple Baton, interrelated choreography and an interdependent approach, all performed to standard music.

Discipline Focus

1. Content:

The primary focus of the Duet discipline is the execution of the 3 twirl modes of aeriels, rolls, and contact material with the added demands associated with the team discipline including exchanges, multiple Baton work, movement, synchronicity, layered elements, all in partnership and interdependent on each other. The program will be seamless in connection and the athletes will demonstrate an equal and compatible skill set. Working together to convey one unified concept is key.

2. Execution:

The skills presented in the Duet discipline should demonstrate a priority of proper body and Baton technique and reflect the idea of “two twirling as one” both in synchronicity and multi-textured disciplines within the choreography. Although the Duet discipline is not a musically interpretive discipline per say, it is, however, a program that demonstrates timing, rhythm, uniformity, coordination and unison, all inherent within the choreography and skill set of the athletes. The 3 twirl modes, along with exchanges, are seamlessly connected with the interdependence of correct technique, proper staging to best showcase the skills, and fluid movement in transitions. Expressively, the duet will utilize the elements of facial communication, both with the audience/judges and appropriately with each other, body details that enhance the aesthetics of the work, and a confident aura over the performance.

THE TWIRL TEAM DISCIPLINE

Discipline Description

The Twirl Team discipline is a group of athletes performing a unified, rhythmic and timing-based program showcasing the three twirl modes and exchanges to a prescribed standard musical selection (presently “Gloria”).

Discipline Focus

1. Content:

- a. Variety and Difficulty of the 3 twirl modes both stationary and traveling executed by all members equally.
- b. Exchanges, form changes, and multiple Baton work integrated and executed interdependently.
- c. Unity of style and execution of all members is paramount.

2. Execution:

The skills presented in the twirling team discipline should be seamless in connection, demonstrating a priority of proper body and Baton technique and reflecting the 3 twirl modes in concept.

The base of skills within the choreography should be rhythmic and conform to the timing considerations of the music. The program has an emphasis on musical timing and not interpretation as a Dance Twirl Team or Freestyle Team would. Trained and unified Baton skills with complimentary bodywork are paramount.

The Twirl Team should appear to twirl and move as “one” which stems from trained Baton, body, and teamwork skills.

The Twirl Team routine will be choreographically paced with impact moments, highs and lows, contrasts of dynamic performance qualities, interrelationship, interaction and expression that yields quality handling and depth of Baton skills that has an aesthetic result in performance.

SIZE OF TEAM 6 to 8 members, with max 2 alternates (reserves)

MUSIC Teams shall perform to the IBTF World Technical Baton Twirling Championship prescribed music selection (Gloria.)

RULES SPECIFIC TO TWIRL TEAM

1. Two alternates for Team are considered as part of a federation’s contingent.
2. A Team may only be comprised of members who are residents of the same country.
3. No props allowed.
4. Acrobatics are not allowed.
5. Teams shall enter from the judge’s left and exit to the judges’ right.
6. See Appendix A for restriction details.

THE ARTISTIC TEAM DISCIPLINE

Discipline Description

The Artistic Team discipline is a group of athletes performing a musically interpretive program showcasing the artistry of choreography via the blending of body and Baton to music of choice.

Discipline Focus

1. Content:

- a. Blending of the 3 twirl modes both stationary and traveling executed musically with logical and interpretive bodywork. Creativity, artistry and innovation will serve as the motivation of the program.
- b. Exchanges and multiple Baton work integrated and executed interdependently that aligns with the artistic vision of the program.
- c. Performance qualities and “mastery of the message” is inherent within the concept of the choreography.
- d. Staging, floor coverage, forms and evolution of forms/transitions is the “blueprint” of the program and will be used to showcase blended Baton/body skills and conceptual “vision” of the program.

2. Execution:

The skills presented in the artistic team discipline should be seamless in connection, demonstrating a priority of proper body and Baton technique, reflecting the modes and exchanges within the Artistic Team concept.

The base of body and Baton skills within the choreography should share equal emphasis, one not over-shadowing the other. The program has an emphasis on musical interpretation via Baton and body that results in a “message” that is complete and comprehensible. The program and athletes should be “one” with the music with their prescribed characterization ever-present.

The Artistic Team routine will be choreographically paced with impact moments, highs and lows, contrasts of dynamic performance qualities, interrelationship, interaction and expression that yields quality artistic approaches with the body and Baton simultaneously.

THE DANCETWIRL TEAM DISCIPLINE

Discipline Description

The DanceTwirl Team discipline is a group of athletes performing a musically interpretive program showcasing the artistry of choreography via the blending of body and Baton to music of choice.

Discipline Focus

A DanceTwirl Team is a group whose performance should be rewarded for the development of staging, the blended Baton and dance combinations performed in a seamless and artistic composition reflecting the musical soundtrack. The DanceTwirl Team should vary from a traditional Twirl Team or Freestyle Team in that if the Baton was removed, the choreography, progression, and body movements would still make sense as a complete routine.

One would not expect to see a contact or roll section without attributing dance and movement. Twirling/rolling in place without intricate movement would not be relevant to a DanceTwirl Team. Aerial or stationary complex tricks will have an entrance and exit in the dance mode. These aerial movements would be musical and receive credit only if they are executed with proper Baton and body technique and staged in an artistic manner.

One would not expect to see an extended multiple Baton section in a DanceTwirl Team unless bodywork and/or movement around the floor is incorporated and is musically inspired. Additionally, neither the choreographer nor the judging panel should deem it mandatory that a multiple Baton section be incorporated into a DanceTwirl Team.

There can be a fourth mode of twirling used in a DanceTwirl Team which is the use of the “dead stick.” This is an artistic shaping of the Baton to the body that develops lines, brings out the character of the music and movement, and complements and enhances the choreography. Different and creative ways of holding the Baton/s can amplify the bodywork and delivery of the choreographer's vision by providing movement from the dead stick back to fluid Baton movement.

The judge's role in the evaluation should be to recognize and reward creative choreography in all genres of dance, ballet, jazz, contemporary, hip-hop, modern, and lyrical. The judging panel should reward the choreographer/athletes for a creative, challenging, and difficult movement that is performed technically clean and value the production even if they are unfamiliar with or dislike a certain style. A popular style or look of a routine should not inherently have more value.

Philosophy Statement:

For coaches, choreographers, and judges, this transformation will enforce proper criteria of the discipline to clearly distinguish between TWIRL TEAMS, FREESTYLE TEAMS and DANCETWIRL TEAMS by not having to include traditional elements that are both typical and expected in the Twirl Team and Freestyle Team disciplines. An example of this would be using standard spin tricks

in the DanceTwirl Team that do not incorporate some form of dance either on the entrance or exit or within the spin itself. Choreographers should be rewarded for utilizing interesting dance moves under tosses as well as dance throughout the performance.

Content Restrictions:

Coaches must utilize age classification as well as the Content Restrictions for DanceTwirl Team to guide them in entering the correct classification. The penalty for exceeding the content restriction is 2.0 points per infraction (deducted from the total score of each judge).

SIZE FOR TEAM 6 to 8 members, with max 2 alternates (reserves)

MUSIC Shall be the choice of the team. All Teams must submit their music file using the online submission system by the entry deadline.

RULES SPECIFIC TO DANCETWIRL TEAM

1. Two alternates for team are considered as part of a federation's contingent.
2. A Team may only be comprised of members who are residents of the same country.
3. No props allowed
4. Teams shall enter from the Judge's left and exit to the Judges' right
5. See Appendix A for restriction details

THE TWIRLING CORPS DISCIPLINE

Discipline Description

The Twirling Corps discipline is a group of athletes performing a musically rhythmic and/or interpretive program showcasing twirling, maneuvering, and bodywork that results in visual effectiveness of quality precision and unison of the trained skills.

Discipline Focus

1. Content:

- a. Trained and quality Baton handling, exchanges, and movement are the emphasized components of this discipline. Multiple Baton, though not required, can enhance the depth of Baton content credit when completed by a minimum of 12 members
- b. Precision, unison, and teamwork are paramount.
- c. Performance qualities and mastery of the trained skills will yield the highest level of general effect.
- d. Staging, floor coverage, forms and evolution of forms/transitions is the “blueprint” of the program and will be used to showcase a controlled and uniform display of Baton and body skills.

2. Execution:

The skills presented in the twirling corps discipline should be seamless in connection, demonstrating a priority of proper body and Baton technique, reflecting the modes and exchanges within the Twirling Corps concept.

The program has an emphasis on twirling in unison with limited use of featured athletes or vignettes. The program and athletes should be “one” with their timing responsibilities and demonstrate a uniform approach to execution.

The Twirling Corps routine will be choreographically paced with impact moments, highs and lows, contrasts of dynamic performance qualities, interrelationship, interaction and expression that yields quality entertainment value via an authoritarian approach of Baton and body skills.

RULES SPECIFIC TO CORPS

1. A Corps may only be comprised of members of the same country
2. No props allowed
3. Acrobatics are not allowed
4. Twirling Corps to enter from the Judges’ left and exit to the Judges’ right

NOTE: The minimum twirl time must be at least 1½ minutes. Twirling time counts when at least 12 members of the corps are twirling at the same time executing the same content for at least two consecutive counts for more than 2 revolutions.

The twirling part can be at any place in the routine, fractioned throughout the routine.

THE ARTISTIC GROUP DISCIPLINE

Discipline Description

The ARTISTIC GROUP discipline is an ensemble of Baton twirling athletes that prioritizes EFFECT and ENTERTAINMENT as the cornerstone for the discipline. The Artistic Group achieves this through the use of effective characterization, interesting staging, creativity, artistic detailing, and a keen sense of musical interpretation, all interlaced to create an entertaining production value.

Discipline Focus

1. Content: Captions

- a. General Effect: is worth 40 points. “GE” is how the athletes “bring the show to life.” Important GE components include characterization, visual perfection, surprise and/or clever moments, emotion, musicality and audience reaction/engagement.
- b. Design/Choreography: is worth 30 points. This is the “blueprint” of the program and relies heavily on the designer’s ability to stage and choreograph for success. The “written” program is assessed via geometric drills/movement/floor coverage and body and Baton vocabulary.
- c. Body: is worth 15 points. This is a quality of the body vocabulary used to enhance the program. The technique development of the body as well as the range and depth of body elements are considered in this caption.
- d. Baton: is worth 15 points. This is a unique caption for the Artistic Group discipline as it is NOT judged based on content or demand. Here, the Baton is assessed as only a complimentary enhancement to the program. Content restrictions limit the use of “tricks”. Creative shapes as a third dimension of the body should be the focus of the Baton caption. Timing, consistency, uniformity and overall perfection are paramount.

2. Execution:

The skills presented in the Artistic Group discipline should be seamless in connection, demonstrating perfection and uniformity throughout. The Artistic Group will perform as “one” with the music and be always visually effective.

The program has an emphasis on ENTERTAINMENT and will be accessible and appealing to a vast audience. MANY approaches of entertainment are possible and all are potentially successful. Creativity and originality should be the motivation of the Artistic Group programs.

SIZE	Minimum of 10 members, no max / Alternates (reserves) - max 2
MUSIC	Shall be the choice of the Group. Groups must submit their music file using the online submission system by the entry deadline.

RULES SPECIFIC TO ARTISTIC GROUP

- No props allowed.
- Artistic Groups enter from the Judge's left and exit to the Judges' right.
- The Total Score of all captions is for the Artistic Group event. Drop penalties and content restrictions penalties are displayed by the penalty judges (in different colors)
- Note: There is only one level of Artistic Group. Artistic Groups must follow the Content Restrictions for B Level.
- The content restrictions support the philosophy of the Artistic Group concept and allow coaches and judges to focus on general effect, choreography and precision.
- See Appendix A for restriction details.

ARTISTIC GROUP CONTENT RESTRICTIONS

The following penalties deducted for including material that is more than the written restrictions below shall be assessed for each illegal element:
